

Word From The Lord For CWCC

I sense the Spirit of the Lord saying this is a great year. A lot of great things will be happening for CWCC, but you must keep working together. I have already made the clarion call, so people's eyes will become open and some ears will be sharpened. Those who could not see or hear will come seeing and hearing. Some people you will go get and some will come on their own, for you have been taught how to reap the harvest. The blessings will continue to come. Seek My face and I will give you what is in My hand. Houses will be bought this year, some lands will be inherited and book writers, keep on writing. Where I lead and guide I will provide. Some will start their own business, jobs will become open and you will do well! Don't forget Me. Do not put the things of God on the back burner. Let your selection be sure. There will be no more running in and out of the things of God. Make your selection sure. Incline your ear to Me. I am turning things up another notch. This is a great year. Make your selection sure.
