

Level Up

The 2020 Theme: It's Time!!!--To Focus On The Family! The Year of Activating and Launching is definitely a continuing of last year's theme dealing with focusing on the family. However, this is a more defining or fine-tuning of the call from God. Merriam Webster Dictionary defines activate as, to make something active or operative, that is, to put an individual or unit on active duty. The word launch is to throw forward; hurl. I hear the words "level up." Not only are we continuing to move forward, but it is time to go to another level in our Church family and in our individual families. It is known that the ministers of Covenant Warriors will be launched this year to carry forth the Word and other duties to move forward the ministry. I sense that other ministries will be birthed from this ministry. Some will remain in-house and others will branch out on their own.

I was led to John 2:1-11 regarding the wedding where Jesus turned the water into wine. Jesus launched His ministry with a miracle. At that time Jesus had five (5) disciples. The miracle served as an encouragement to the disciples and provided the needed wine for the wedding feast. The standout to me was that Jesus was present at the wedding and was sociable. Thus, Covenant Warriors, we should be sociable with each other and provide a support to our individual family and Church family. Just as the marriage was blessed by Jesus' presence, so are the marriages that are performed by God's representative.

CWCC, as we receive new converts into this local body, we must realize that they are babes in the Lord, just as the new disciples were. We must handle them with care by introducing and teaching them the things of God. Help them to get back on track should they have a setback. By properly teaching them and nurturing them with the Word of God, they will grow into mighty men and women of God.

According to Biblestudy.org, the number twenty (20) can mean a complete or perfect waiting period. As we have prepared our fields, it is time to launch out into the deep.
